ized plants are usually more expensive than bare-root or machine-balled plants. However, since soil is moved with the root systems at planting time, fewer roots are dis-turbed, thus allowing for a greater likelihood of survival. All landscape plants can be handled as B & B or contain-erized plants. Timing: When to Plant

The Plant Kingdom is a way to classify (or organize) plants. They are divided into groups based on the traits they have in common. Scientists change the way plants are classified from time to time, when they discover new types of plants or learn new things about plants. The two main groups are vascular plants (plants that use stems and
