A workplace health and safety management system (WHSMS) can be thought of as a particular, organisational wide approach, instituted by a person conducting a business or undertaking (PCBU), in order to minimise the risk of injury and illness arising from the conduct of their undertaking.

Workplace Health and Safety Management System (WHSMS)

Management Leadership. Because the occupational safety and health management system (OSHMS) focuses on management spearheading safety efforts, implementing the ANSI Z10 standard requires strong leadership and a solid commitment from upper management within the organization.
