Astrology is a very detailed and advanced subject, but is well worth the time and study. Most of those who call themselves "astrologers" never advance beyond the elementary level. Most of the mainstream astrology books available are elementary and this makes astrology look bad in the eyes of the public. Many of

of Course Moon occurs after the Moon makes its final Ptolemaic aspect to a visible planet and before shifts signs. In the old days, the Moon was seen as "trans-lating the light" of the other planets to the earth realm. Once she'd met all the plan-ets, there was nothing left to deliver until she got to the next sign and began again.
