Finance is a field that is concerned with the allocation of assets and liabilities over space and time, often under conditions of risk or uncertainty. Finance can also be defined as the art of money management. Participants in the market aim to price assets based on their risk level, fundamental value, and their expected rate of return. Finance can be split into three sub-categories: public ...

Finance - Wikipedia

By H. Kent Baker and Victor Ricciardi. Investor behaviour often deviates from logic and reason, and investors display many behaviour biases that influence their investment decision-making processes.
