This holistic conceptualization of the customer experience differs from most studies in the retailing literature which have focused on elements of the retail environment which are under the control of the retailer and how these elements influence specific customer responses.

Customer Experience Creation: Determinants, Dynamics and

The reliability of the multi-item scales was examined by fitting congeneric measurement models for each of the seven indicators using LISREL 8 (Jöreskog and Sörbom, 1993). Scales were purified based on several considerations including the magnitudes and standard errors of the factor loadings on each item, the item and construct reliabilities (Fornell and Larcker, 1981), significant ...

Hedonic and utilitarian motivations for online retail

A retail park or power center is an unenclosed shopping center with a typical range of 250,000 square feet (23,000 m²) to 600,000 square feet (56,000 m²) of gross leasable area that usually contains three or more big box retailers and various smaller retailers (usually located in strip plazas) with a common parking area shared among the retailers. It is likely to have more money spent on ...
