An Investigation into Hybrid Models of Mindreading: A Dual Type Theory Account Human beings have the capability to attribute emotions and beliefs to others with decent accuracy, such that we can interact successfully in our environment most of the time. For

### **An Investigation into Hybrid Models of Mindreading: A Dual**

Mindreading, or attributing mental states to others, involves instances of simulation and theory; but there is controversy over which one of these methods is the primary, or default, mechanism. I propose that mindreading is a theory-based process, such that we utilize theory over simulation when both are available and reliable.
