1. Introduction. Since its inception in 1988 (first issue in 1990), the mission of The Leadership Quarterly (LQ) has been to sustain and catalyze the development of innovative, multi-disciplinary research that advances the leadership field. Nearly 25 years later, this goal, along with many of the journal's other primary objectives, has been reached (Gardner, Lowe, Moss, Mahoney, & Cogliser, 2010).

Leadership theory and research in the new millennium

The OECD Skills Strategy framework is being used to support countries in building more effective national skills strategies by: Working closely with interministerial teams in capitals whose members include government officials from education, employment, economic development and innovation, among others.

Computer art is any art in which computers play a role in production or display of the artwork. Such art can be an image, sound, animation, video, CD-ROM, DVD-ROM, video game, website, algorithm, performance or gallery installation. Many traditional disciplines are now integrating digital technologies and, as a result, the lines between traditional works of art and new media works created ...

Perspective (from Latin: perspicere "to see through") in the graphic arts is an approximate representation, generally on a flat surface (such as paper), of an image as it is seen by the eye. The two most characteristic features of perspective are that objects appear smaller as their distance from the observer increases; and that they are subject to foreshortening, meaning that an object's ...

Presently, e-waste is mainly generated in countries of the Organization for Economic Cooperation and Development (OECD), which have highly saturated markets for Electrical and Electronic Equipment (EEE), as Fig. 2 shows for the example of PCs. Comparatively, the market penetration of EEE in industrializing countries is not very high.
