Some genderqueer people prefer to use gender-neutral pronouns. Usage of singular 'they', 'their' and 'them' is the most common; and ze, sie, hir, co, and ey are used as well. Some others prefer the conventional gender-specific pronouns 'her' or 'him', prefer to be referred to alternately as 'he' and 'she', or prefer to use only their name and not use pronouns at all.

Third gender or third sex is a concept in which individuals are categorized, either by themselves or by society, as neither man nor woman. It is also a social category present in societies that recognize three or more genders. The term third is usually understood to mean "other"; some anthropologists and sociologists have described fourth, fifth, and "some" genders.

By grasping for crystal clarity, we risk falling into the dangerous psychological sin of concretization. When an archetypal content cannot be held in the full multidimensionality of symbolic understanding, that is when it threatens to tear itself loose from its ballast in the collective unconscious, and go about our psychic countryside ravenously rampaging, giving rise to destructive contagions.

"Today, we have a president who seems to reject the role of a free press in our democracy," she said. "Although obsessed with his own press coverage, he evaluates it based not on whether it provides knowledge or understanding, but solely on whether the daily coverage helps him and hurts his opponents."
