I think, the best way to learn any thing is to first study it and then do things in it or with it. The same goes for Python also. For starter you can begin with the Programming Foundations with Python at Udacity. This course is at very beginner level and well structured.

### **How should I start learning Python? - Quora**

Beautiful is better than ugly. Explicit is better than implicit. Simple is better than complex. Complex is better than complicated. Flat is better than nested.
