In Brief: Good design makes documents easier to use, helps documents stand out from other pieces of information, and lends credibility to document creators. Librarians across library types and departments provide instruction and training materials to co-workers and library users. For these materials to be readable and accessible, they must follow guidelines for usable document design.

Determination of maximum span between pipe supports using maximum bending stress theory.

Determination of maximum span between pipe supports using

Within industry, piping is a system of pipes used to convey fluids (liquids and gases) from one location to another. The engineering discipline of piping design studies the efficient transport of fluid. Industrial process piping (and accompanying in-line components) can be manufactured from wood, fiberglass, glass, steel, aluminum, plastic, copper, and concrete.

Piping - Wikipedia

Traceability information means data that is provided within ASTM F2897-11a (incorporated by reference, see Â§ 192.7) that indicates within the unique identifier, at a minimum, the location of manufacture, production, lot information, size, material, pressure rating, temperature rating and, as appropriate, type, grade and model of pipe and components.
