

production and operations management pdf

This conversion process is the heart of what is called production and is the predominant activity of a production system. Operations managers manage the production system; their primary concern is with the activities of the conversion process or production.

Production and Operations Management - POM

Within a production / operations environment, it seems probable that: 1. The ability of an individual to change capacity is directly related to that individual's position in the organization's hierarchy 2. The time necessary to implement a capacity increase is proportional to the magnitude of the increase.
