The other day a great question was asked on the Teamcenter Engineering group on LinkedIn. A Teamcenter Enterprise student trying to learn Unified, asked a question about Business objects and all that:

Teamcenter Business Objects, Classes, Properties Explained

Property dualism describes a category of positions in the philosophy of mind which hold that, although the world is constituted of just one kind of substance—the physical kind—there exist two distinct kinds of properties: physical properties and mental properties. In other words, it is the view that non-physical, mental properties (such as beliefs, desires and emotions) inhere in some ...

Property (philosophy) - Wikipedia

Adobe Properties. Set MSI and Adobe properties as needed to perform the actual install as follows: Property values are case sensitive. Copy the values from the table below.

In systems engineering and requirements engineering, a non-functional requirement (NFR) is a requirement that specifies criteria that can be used to judge the operation of a system, rather than specific behaviors. They are contrasted with functional requirements that define specific behavior or functions. The plan for implementing functional requirements is detailed in the system design.

Non-functional requirement - Wikipedia

Abstract. This document specifies level 1 of the Cascading Style Sheet mechanism (CSS1). CSS1 is a simple style sheet mechanism that allows authors and readers to attach style (e.g. fonts, colors and spacing) to HTML documents.
