HSV color is shown here in an illustration from Jonathan Sachs' tutorial, "The Basics of Digital Images" (right click on the link to save it in Adobe PDF format). $V = \max(R,G,B)$. Maximum Value ($V = 1$ or 100%) corresponds to pure white ($R=G=B=1$) and to any fully saturated color (at least one RGB value at 1 and one at 0; no gray component ($W = \min(R,G,B)$)).

Thermochromism is the property of substances to change color due to a change in temperature. A mood ring is an excellent example of this phenomenon, but thermochromism also has more practical uses, such as baby bottles which change to a different color when cool enough to drink, or kettles which change when water is at or near boiling point. . Thermochromism is one of several typ

Paper marbling is a method of aqueous surface design, which can produce patterns similar to smooth marble or other kinds of stone. The patterns are the result of color floated on either plain water or a viscous solution known as size, and then carefully transferred to an absorbent surface, such as paper or fabric. Through several centuries, people have applied marbled materials to a variety of ...
