full understanding of the final product. If each student's part is essential, then each student is essential. That is what makes the Jigsaw instructional strategy so effective. What is its purpose? Jigsaw learning allows students to be introduced to material and yet maintain a high level of personal responsibility.

## **Jigsaw - Chino Valley Unified School District**

In this "jigsaw" exercise, each student is assigned one of five geochemical processes in the carbon cycle to research, fully understand, and then explain to others in groups of five. At the end of class all students will know about each of the five processes, and thus develop an integrated understanding of the entire carbon cycle.
