Appendix 2: Phase II - Case Study Research Instruments Individual Case Study Guidance Notes, Reporting Structure and Interview Template This document contains three papers: ... system/approach you are using. 3.5 Critical Incidents ... gathered from other informants as your research progresses).

Case Study Research Instruments - European Commission

The primary research was conducted using a questionnaire survey as the research instrument. The instrument was evaluated for its reliability and then the research was conducted with 100 consumers.

(PDF) Validity and reliability in quantitative research

research philosophy subscribed to, the research strategy employed and so the research instruments utilised (and perhaps developed) in the pursuit of a goal - the research objective(s) - and the quest for the solution of a problem - the research

Chapter Three: Research Methodology

Instrument is the general term that researchers use for a measurement device (survey, test, questionnaire, etc.). To help distinguish between instrument and instrumentation, consider that the instrument is the device and instrumentation is the course of action (the process of developing, testing, and using the device).
