Dog Facts: Dog Breeds & Groups A breed is a relatively homogeneous group of animals within a species, developed and maintained by man. All dogs, impure as well as pure-bred, and several wild cousins such as wolves and foxes, are one family. Each breed was created by man, using selective breeding to get desired qualities.

### **Dog Breeds in Groups - Cooperative Extension County Offices**

Dog Breeds 7 commonly removed when puppies are very young. Keep in mind, however, that some breed standards require one or more dewclaws. The AKC classifies different dog breeds into groups based on their appearance, performance, and the function for which they were originally developed. With so many different breeds, this classification is very helpful.
